- Cast from ViewBoard to audience, or audience to ViewBoard with Two-Way Casting.
- ViewBoard to ViewBoard screen mirroring with Grouping Mode.
- Control the flow of presentations by managing audience devices with Moderator Mode.
- Compatible with Windows, Mac, Linux, Android, iOS, and Chrome operating systems.

## Product Omschrijving

From the conference room to the classroom, vCast makes big-picture collaboration and creation easier than ever by using your laptop, smartphone, or tablet with a ViewBoard® display. Compatible with Windows, Mac, Linux, and Chrome operating systems, vCast makes wireless screen casting effortless and accessible. Featuring split-screen support for up to four devices (unlimited with vCast Pro), vCast enables users to annotate documents and multimedia on a ViewBoard. Stay in command during presentations with Moderator Mode, while vCast's remote-control support allows you to move freely across the stage.
